

Passenger Lists from the *Settlers Gazette*

The Swan River Pioneers' newsletter , the **Settlers Gazette**, is produced quarterly and received by all members of the Western Australian Genealogical Society's

[Swan River Pioneers 1829-1838 Special Interest Group](#)

. These Passenger Lists and shipping arrivals have been transcribed from tables published in early copies of the

"Western Australian Chronicle and Perth Gazette"

. The lists appear to be complete and accurate at least with the ships' names and arrival dates.

Fully searchable indexes of passenger lists for these ships and others are available to members; see what is available under our

[Indexes and Databases](#)

page. Members can log in and go direct to the

[Swan River Colony Passenger Arrivals and Departures 1826-1838 database search table](#)

The tonnages given have nothing to do with the ships weight, but are a measurement of the volume in a ship's hull, calculated at the rate of one ton to 100 cubic feet. The actual weight of the ships was usually much less than the registered tonnage.

The following **Passenger Lists** and Shipping details have been extracted from the **Settlers Gazette**

newsletter 1996-1998.

(Ships shown in blue have a link to the passenger list, if not blue there is no list available here)
