

A quick tip for using the Events Calendar

Friday, 25 January 2019 09:26 - Last Updated Friday, 01 March 2019 14:01

When you want to access the Events Calendar, click using the right button of your mouse. This will give you the option to "Open in a New Tab" and leave the website open while you use TryBooking. Having the website open in another tab is a quick way to get back to the website when you have finished your booking or to swap between the website and the TryBooking Events Calendar.
