

Underway now - site works at 48 May Street

Thursday, 31 January 2019 11:14 - Last Updated Friday, 01 March 2019 14:05

Construction work on the rear car park at 48 May Street commenced on Monday 4 February and will continue for a few weeks.

Already there's been significant progress! Gone is the eyesore and wasted space and our new parking area is emerging.

Please be aware that there may still be significant noise, especially in Unit 6, as the road base is laid and topped with bitumen. Plan your visits to FHWA with this in mind.

However, for a couple of weeks of inconvenience, we'll have improved access to additional parking space - a brilliant outcome.
