

2009 Survey Results for Courses

Question - **Have you been to a course or discussion?**

Responses received as below

Computer study day with Mike and Lesley was great.

Not living locally, this is impossible

Was unable to attend a course this year but have thoroughly enjoyed them in the past.

Intend booking for a May computer course.

Course/Discussion: too many during weekdays.

The courses on offer aren't held at convenient times to suit me at the moment.

Unfortunately I was unable to attend your new members event in February - if this is being repeated this year, would love to attend.
